RENEWABLE ENERGY PRO	OGRAM RIDER
AVAILABILITY	
Service is available under this Rider at points on the Cooperative within its service area, for Customers taking service under the Capplicable and pursuant to the qualifications provided herein. No available to Customers taking service under Cooperative's Irrigator to Customers with self-generation that require standby, back	Cooperative's standard service rate schedule and as lotwithstanding the foregoing, this Rider shall not be ation Service or Street Lighting Service schedules
CHARACTER OF SERVICE	
As is available, Cooperative will offer to Customer energy from renewable resources and associated renewable energy credits in an amount equal to the level of service purchased by Customer taking service under this Rider. Energy output from renewable resources will vary from month-to-month due to weather and other factors, and in some months participating Customers may not receive the full amount of participation energy associated with their selected Participation Level.	
DIVISIONS, TIERS, AND PARTICIPATION LEVELS	
Service under this Rider is available under either the wind Division or the solar Division. Three Tiers are available under each Division. The qualifications and cost structure for each Division and the associated Tiers are uniquely defined herein. Customers that meet the qualifications for a given Division and Tier may select a Participation Level ranging from a minimum of 25% of their total energy consumption to a maximum of either 100% of their total energy (kWh) consumption or the Tier Participant Cap, whichever is greater.

QUALIFICATIONS AND LIM	<u>IITATIONS</u>	
Service under this Rider is su	ubject to qualifications and lim	itations as described below.
The Minimum Size qualification for all tiers, excluding Solar Division Tier 1b – Residential Community Solar, is determined by the Customer's average hourly demand (kW) from the previous 12 months. Participation in Solar Division Tier 1b shall be at least 1 (125 kWh) share. The Minimum Size qualification is evaluated when a customer requests service under the Rider to determine initial eligibility. The Minimum Size qualification is subsequently evaluated at the beginning of each calendar year to determine ongoing eligibility.		
The Tier Participant Cap is a not-to-exceed monthly limit for maximum participation (kWh/month) by individual Customers in the Renewable Energy Program. The Tier Participant Cap is effective each month that a Customer is taking service under the Rider.		
The Total Tier Cap is a not-to-exceed monthly limit for maximum participation (kWh/month) by all Customers participating in a given Tier. The Total Tier Cap is evaluated each time a Customer initially requests service under the Rider. The evaluation is performed by summing the maximum monthly participation energy (MWh/month) from the previous 12 months for all Customers participating in a given Tier with the anticipated maximum monthly hourly participation energy for the Customer that is requesting service under the Rider based on that Customer's maximum monthly energy usage from the previous twelve months multiplied by the requested level of participation.		
Renewable Energy Credits will not be available to Customers participating in Solar Division Tier 1b – Residential Community Solar.

Entire Territory Served	Replacing Schedule <u>23-RE</u> Which was filed <u>June 1, 2023</u>	
(Territory to which schedule is applicable)		
No supplement or separate understanding shall modify the tariff as shown hereon.	Sheet 4 of 6 Sheets	
Wind Division Tier 1: Renewable Energy Charge will be \$0.0025/kWh. The Renewable Energy Charge will be in addition to all other applicable charges under the applicable rate schedule for standard service to the Customer.		
Wind Division Tier 2: Renewable Energy Charge will be the average energy charge associated with energy received in a given month from Cooperative's wholesale power provider's wind purchase power agreements in effect as of 1/1/2020. The Renewable Energy Charge, in combination with revenue earned from selling participation energy into the SPP Integrated Marketplace, will be used to calculate a modified Energy Cost Adjustment as described in each participating Customer's service agreement. All other applicable charges under the applicable rate schedule for standard service to the Customer will apply.		
Wind Division Tier 3: Renewable Energy Charge will be the average energy charge associated with energy received in a given month from the Cooperative's wholesale power provider's wind purchase power agreement associated with the Customer's Tier 3 Service Agreement. The Renewable Energy Charge, in combination with revenue earned from selling participation energy into the SPP Integrated Marketplace, will be used to calculate a modified Energy Cost Adjustment as described in each participating Customer's service agreement. All other applicable charges under the applicable rate schedule for standard service to the Customer will apply.		
Solar Division Tier 1a: Renewable Energy Charge will be \$0.0035/kWh. The Renewable Energy Charge will be in addition to all other applicable charges under the applicable rate schedule for standard service to the Customer.		
Solar Division Tier 1b – Residential Community Solar: The monthly Renewable Energy Charge will be \$4.00 per each 125 kWh share. The monthly Renewable Energy Adjustment will be equal to the total monthly revenue earned by the Johnson Corner Solar Project from selling energy into the SPP Integrated Marketplace divided by the total energy (kWh) produced by the Johnson Corner Solar Project during the month multiplied by 125 multiplied by the total number of subscription shares. The Renewable Energy Charge and Renewable Energy Adjustment will be in addition to all applicable charges under the applicable rate schedule for standard service to the Customer.		
Solar Division Tier 2: Renewable Energy Charge will be the average energy charge associated with energy received in a given month from the Cooperative's wholesale power provider's solar purchase power agreements in effect as of 1/1/2020. The Renewable Energy Charge, in combination with revenue earned from selling participation energy into the SPP Integrated Marketplace, will be used to calculate a modified Energy Cost Adjustment as described in each participating Customer's service agreement. All other applicable charges under the applicable rate schedule for standard service to the Customer will apply.
